

Appl. No. 10/791,619
Response dated April 29, 2005
Response to Restriction Requirement mailed on April 1, 2005

Patent Docket #P1123R1D1C1

Amendments to the Claims:

This listing of claims will replace all prior versions and listings of claims in the application:

Listing of the Claims:

Claims 1-47 (Previously Canceled)

48 (Previously presented). A method of treating an IgE-mediated disorder comprising administering a therapeutically effective amount of an anti-IgE antibody or IgE binding fragment thereof selected from the group consisting of:

- (a) a molecule comprising the variable heavy and variable light chains of E26 (SEQ ID NOS:15-1612 and 8);
- (b) a molecule comprising the variable heavy and variable light chains of E27 (SEQ ID NOS:17-1811 and 8) or
- (c) antigen binding fragments of (a) or (b).

49 (Previously presented). The method of Claim 48, wherein the IgE mediated disorder is hypersensitivity.

50 (Previously presented). The method of Claim 49, wherein the IgE mediated disorder is anaphylactic hypersensitivity.

51 (Previously presented). The method of Claim 50, wherein the anaphylaxis is caused by bee sting.

52 (Previously presented). The method of Claim 50, wherein the anaphylaxis is caused by snake bite.

53 (Previously presented). The method of Claim 50, wherein the anaphylaxis is caused by the administration of parental medication.

Appl. No. 10/791,619
Response dated April 29, 2005
Response to Restriction Requirement mailed on April 1, 2005

Patent Docket #P1123R1D1C1

54 (Previously presented). The method of Claim 50, wherein the anaphylactic hypersensitivity results from exposure to an allergen selected from the group consisting of: pollen, food, dust mites, animal dander, fungal spores and insect venom.

55 (Previously presented). The method of Claim 50, wherein the IgE-mediated disorder is selected from the group consisting of asthma, allergic rhinitis, eczema, urticaria and food allergies.

56 (withdrawn). The method of Claim 54, wherein the allergen is pollen.

57 (Previously presented). The method of Claim 54, wherein the allergen is food.

58 (withdrawn). The method of Claim 54, wherein the allergen is dust mites.

59 (withdrawn). The method of Claim 54, wherein the allergen is animal dander.

60 (withdrawn). The method of Claim 54, wherein the allergen is fungal spores.

61 (withdrawn). The method of Claim 54, wherein the allergen is insect venom.

62 (withdrawn). The method of Claim 55, wherein the IgE-mediated disorder is asthma.

63 (withdrawn). The method of Claim 55, wherein the IgE-mediate disorder is allergic rhinitis.

64 (withdrawn). The method of Claim 55, wherein the IgE-mediated disorder is urticaria.

Appl. No. 10/791,619

Parent Docket #P1123RID1C1

Response dated April 29, 2005

Response to Restriction Requirement mailed on April 1, 2005

65 (Previously presented). The method of Claim 55, wherein the IgE-mediated disorder is food allergy.
